SCT Sailclothtent

Built to last, made to connect.

Qtents.com

Qtents sailcloth tents combine luxury, durability, and elegance, creating a stylish outdoor setting for special occasions. Made from waterproof, UV-resistant fabric and supported by sturdy GL poles, they offer a refined appearance and reliable protection against the elements. Ideal for parties, weddings, exclusive dinners, and pop-up restaurants where atmosphere and experience take center stage.

Discover our sailcloth

Qtents sailcloth tents combine high-quality craftsmanship with **Dutch design** and European production, creating an elegant and distinctive outdoor experience. The translucent fabric casts a beautiful pattern in the sunlight, while atmospheric GL wooden poles give the tent a warm and inviting appearance.

Available in various standard sizes, as a **one-piece** or **segmented** version, they are suitable for everything from intimate settings to larger events. Thanks to the modular system, extensions are simple and flexible, ensuring the tent always perfectly suits your event. The segmented versions are infinitely extendable and can be seamlessly connected using a waterproof sailcloth coupling. This guarantees maximum flexibility without compromising reliability.

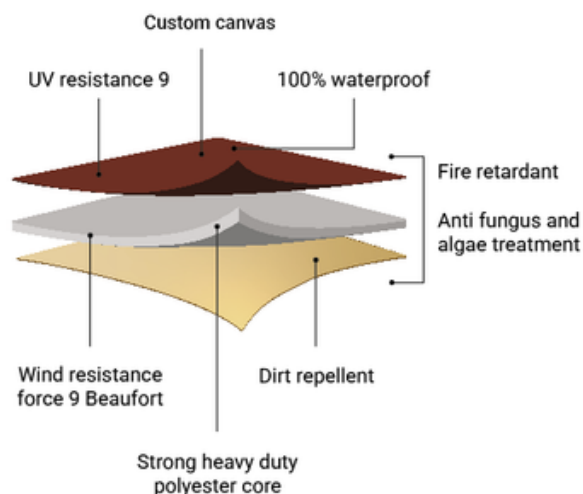

The lightweight yet strong material makes it possible to install tents of up to 400 m² with just **three people**. With sidewalls included, the tents can be used year-round while maintaining their open and airy atmosphere. Reinforced seams and high-quality fabric ensure reliability, even in severe weather conditions.

Composition of the fabric

- **100% waterproof**, finished with a protective top coating
- Custom fabric with a **canvas look** for an authentic character
- **UV resistance: 9**
- Extremely lightweight yet strong material with high tear resistance thanks to the **heavy-duty** polyester core
- Treated against mold and algae
- Wind resistance: **75–88 km/h**, force 9 on the Beaufort scale
- Flame-retardant according to **M2 – NF P 92-503**
- Weight: **400 g/m²**
- Color: ivory with reinforcement details/pattern

Kleur

Ivory
